BIBLIOGRAFIA

W

rozdziale przedstawiono bibliografię prac opublikowanych w latach 1950–1995, których autorami są pracownicy Katedry Chemii Fizycznej i wywodzących się z niej zakładów. Z ogólnego spisu, obejmującego około 1000 prac, wyłączono książki, monografie, skrypty i tłumaczenia książek oraz teksty opublikowane jako rozdziały w książkach, i przedstawiono je w podrozdziałach. Prace są ułożone chronologicznie, w obrębie danego roku uporządkowane alfabetycznie według nazwiska pierwszego autora i ponumerowane. W wypadku tytułów prac opublikowanych po polsku podano również (w nawiasach) wersję angielską tytułu. Tytuły prac opublikowanych w języku rosyjskim podano wyłącznie w tłumaczeniu angielskim, zaś tytuły niemieckie i angielskie – w wersji oryginalnej. Ilustracje, syntetyzujące działalność wydawniczą pod względem statystycznym, podano na końcu rozdziału.

W zakończeniu zilustrowano działalność wydawniczą.

Nazwiska autorów opublikowanych prac są zawarte w oddzielnym „Skorowidzu nazwisk”, umieszczonym na końcu opracowania.

1951

1. Baranowski B.
Isotherme Konvektionsströmung wässriger KMNO₄-Lösung
Naturwiss., 17, 405–406 (1951)
2. Gumiński K., Chocianowicz T., Wazewska W.
Studies on the formation of barrier anodes of aluminium
Bull. Acad. Pol. Sci. Lett., cl. sci. math. nat. Ser. A, 335–340 (1951)
3. Gumiński K., Ruziewicz Z.
Investigation on the luminescence of some powder-phosphors
Bull. Acad. Pol. Sci. Lett., cl. sci. math. nat. Ser. A, 109–121 (1951)

1952

1. Baranowski B., Demichowicz J.
Nowe urządzenie do badania termodyfuzji roztworów elektrolitów metodą Clusiusa (A new equipment for the investigation of the thermodiffusion of electrolytic solutions by Clusius's method)

SKOROWIDZ NAZWISK

Skorowidz nazwisk jest trzyczęściowy. Część pierwsza zawiera syntetyczne dane dotyczące osób, których nazwiska występują w rozdziałach II–VI. Znajomość poniższego klucza ułatwi odczytanie informacji oraz odszukanie właściwego miejsca w tekście.

- Duża litera i występująca po niej liczba oddzielona myślnikiem oznacza rodzaj pracy i rok jej złożenia (obrony), rok nadania tytułu.

Przyjęto oznaczenia:

- M – magisterska
- I – inżynierska
- D – doktorska
- H – habilitacyjna.
- P – tytuł profesora
- DHC – tytuł doktora honoris causa.

- Małe litery wraz z liczbą (liczbami) w nawiasach identyfikują osoby związane m. in. z opieką nad dyplomantem bądź doktorantem:

- m – magisterium
- i – praca inżynierska
- d – promowanie pracy doktorskiej
- dhc – promowanie doktora honoris causa

- Połączenie małej i dużej litery jest związane z recenzowaniem rozpraw:

- rD – prace doktorskie
- rH – rozprawy habilitacyjne.

W części drugiej zestawiono nazwiska referentów wymienionych w rozdziale VII, część trzecia uwzględniła autorów prac przedstawionych w rozdziale VIII.
